Join us in Taipei from October 20–23, 2025, for the Asia-Pacific Circular Economy Roundtable & Hotspot— a flagship event co-hosted by Taiwan’s Ministry of Environment, Ministry of Agriculture, Ministry of Economic Affairs, and the Circular Taiwan Network.

Anchored by the international initiative *Circular Collaboration for Climate Crisis (CC4CC)*, this three-day forum will showcase how Good Ideas evolve into Good Businesses through Good Governance, guided by the Circular Trilogy framework.

From dialogue and sector showcases to immersive site visits, this is your opportunity to connect with pioneers shaping circular policy, innovation, and implementation across the Asia-Pacific.

## Dives into Key Themes Driving Circular Systems Change

**October 22** opens with international dialogue on how governments are shaping national circular economy strategies—framed by emerging global trends and grounded in Asia-Pacific realities. Taiwan’s draft Circular Economy Roadmap will be featured as a case study in regional policymaking. The day continues with immersive industry showcases across six key sectors—Agriculture & food, Textiles, High-tech and electronics, Architecture and Construction, Plastics and packaging, and Energy and key materials—highlighting how Taiwan and Asia-Pacific leaders are turning global challenges into circular opportunities.

On **October 23**, the spotlight shifts to system-level enablers. Five parallel sessions will explore five core themes: Policy & Governance, Financial Enablers, Business Transformation, Trade & Traceability, and Consumer Engagement. These strategic dialogues will equip public and private sector leaders with insights to advance circular solutions across industries and value chains.

### What's more?

On **Oct. 21**, six curated routes offer an exclusive look behind the scenes of Taiwan’s leading circular solutions—from TSMC’s Zero Waste Manufacturing Center to BYTE International’s repair revolution. **Seats are limited—register now!**

### DATE

OCT. 20–23, 2025

### LOCATION

TAIPEI, TAIWAN
